Crime Prevention Advisory: Housebreaking & Theft

Dear Tenants,

Recently there was a case of Housebreaking By Night at Yishun Industrial Park A.

2 The culprit/s gained access to the office premises through a hole via the perimeter fencing. A safe was broken into and the culprit(s) made away with \$200,000. Although there were CCTVs installed at the entrance of the office premises, they were not on recording mode at the point of the incident.

3 The police would like to remind business owners to adopt the following measures:

- a) Ensure that premises are secured and locked especially after dark;
- b) Avoid leaving too much cash in the company especially after dark;
- c) Ensure that CCTVs installed are serviced regularly and in working condition (i.e. in recording mode); and
- d) Install an alarm system which notifies the owner/security company in the event of activation.

4 If you spot any suspicious character loitering around your premises, please call **Yishun North Neighbourhood Police Centre** at **1800-852 9999** or Police hotline at **“999”**.

Yours faithfully,

DSP Yeo Ai Beng
Commanding Officer
Yishun North Neighbourhood Police Centre

CRIME PREVENTION – A SHARED RESPONSIBILITY
