MODIFICATION OF TOY GUNS

Please refer to the above subject.

2. In general, you should not be modifying any toy guns to look like a real gun. You will be only allowed to do so unless you are able to fulfill the following conditions:

(a) The modified toy guns are to be kept in a place of dwelling and solely for display purpose.

(b) The modified toy guns should not be carried in public places or in the view of the public.

3. Please also be reminded that possession of modified toy guns which resemble a real gun in public areas may cause unnecessary alarm to the member of publics. Hence, for other situations which fall outside the conditions as stated in Para 2, you have to seek approval from Licensing Division.

4. For clarifications, please contact Singapore Police Force, Arms & Explosives Branch at Tel: 68350000 or email spf_ops_licensing@spf.gov.sg.

Thank you.

Yours sincerely,

DSP KOH MENG HONG
